THE RUSSIAN LANGUAGE **FOR** **FOREIGNERS**

IN THE CENTRE OF SLAVIC
LANGUAGES AND CULTURES

MINSK, REPUBLIC OF BELARUS

WHY HAVE 83% OF PEOPLE BEEN LEARNING LANGUAGES FOR YEARS AND HAVE NOT BEEN ABLE TO SPEAK IT YET, WHILE 17% MANAGE TO SPEAK A LANGUAGE WELL ENOUGH AT THE THIRD CLASS?

Learning a foreign language may be difficult, long, expensive and extremely boring. Those could have been the reasons why you wanted to give up your studies without reaching your goals. And it was definitely not your fault.

All you need is to master the language in an entertaining and efficient way. But how to do it?

COMMUNICATIVE APPROACH

To have a good command of a language involves, first of all, having communicative competence, which means using your knowledge efficiently in a particular situation. The teaching method offered by “The Centre of Slavic Languages and Cultures” is aimed at developing communicative competence of our students.

Our goal is to teach you to interact with other people in Russian, which means different ways of communication: speech practice, written language (reading and writing texts independently), the skill to understand your interlocutor’s speech. In short, our teaching approach is not aimed at theoretical study of the language but at real-life communication. As a result, the approach has the name of a “communicative” one.

WE PROVIDE A VARIETY OF TEACHING METHODS AND TECHNIQUES FOR YOU

And thus you will never get bored at the lessons in our centre!

The teaching based on this approach is a far cry from the traditional one. You will be studying the language in practice but not in theory. The theory will only be taught in the amount necessary to have a proper real-life communication. Nothing extra. We will not make a linguist out of you with the perfect knowledge of the rules.
